Overview

What the area is for, equipment at a glance and who the Area Champion is.

- Fiber Arts Overview

Fiber Arts Overview

The Fiber Arts area covers textiles, sewing and leatherworking. It has sewing machines along with hand tools for fabric and leather work.

Equipment at a glance

The current list of Fiber Arts equipment is in **Atlas**: https://atlas.waukeshamakers.com.

No SOP pages have been written for this area yet. They will be added to the **Equipment SOPs** chapter of this book.

Before you work here

- **Corded tools require training**, sewing machines included. See **Training and Certification: How Certification Works**, and check your certifications in Journeyman at https://journeyman.waukeshamakers.com.
- **Inspect each machine before use.** See **Training and Certification: Pre-Use Inspection**.
- **Sharp tools.** Leather knives, rotary cutters and needles are a leading cause of small injuries. Cut away from yourself and put blades away or close them when you are done.
- **Clean up** threads, scraps and pins so the next person does not find them the hard way.

Area Champion

> To be confirmed: who the Fiber Arts Area Champion is and how to reach them. See **Volunteer Runbooks: Area Champions** for what Area Champions do.

Classes are listed with events at https://waukeshamakers.com.
